INSTRUCTIONS - REPORT OF WATER RECEIVED FROM OTHER SOURCES

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For that information not already preprinted on this form, please follow the directions below.

Part I - Water Received or Diverted from Other Sources other than Irrigation Districts

1. Record all water received that was withdrawn from a well, other than stored water, including surface water not withdrawn from a well, and Direct Use Effluent.
2. Enter the type of right from which you receive water.
3. Enter the measurement method. If the volume of water was estimated, include an explanation of the estimation method on a separate sheet.
4. Enter the quantity of each type of water received from each right listed. If you receive a type of water not listed, enter the type in one of the blank boxes. If water received is from a well, enter the DWR well number below the quantity.
5. Enter the total water received from each right in the Total Received column.
6. Total the Total Received column.
7. Enter the total of each type of water received in the Total Acre-feet Received row.
